# LINE

Take a line for a walk to map out an adventure!

1. Tie one end of a piece of string to a chair
2. Hold the other end in your hand and take the string for a walk around the room
3. Pay attention to the types of lines the string makes as you move
4. What lines are created when it bends around something?
5. What about when it wraps around something?
6. Use paper and pencil to show your walk by drawing the lines you created

## Supplies:

- blank paper
- a pencil
- long piece of string or colored yarn

For more fun: Imagine the lines are different moments on your path during an exciting journey. Invent reasons why your path followed those lines on your adventure (like chasing or running from something).
