

NAME: \_\_\_\_\_

# AUDIENCE

**Involve your audience!**

## Supplies:

- whatever you will need to create art of your choice

**For more fun: Keep working on your art until you are ready for a larger audience, then brainstorm with an adult family member or teacher about putting on a show for family or friends**

1. Think about all the different ways of creating art and which you enjoy the most (like singing or drawing or filming a show like me)
2. Gather what you need to make the art of your choice
3. Work on your new art piece until it's finished and you're satisfied with it
4. Invite an audience to experience your art
5. Afterwards, ask them what questions they have
6. Answer their questions, then tell them about why you like making art this way
