

Compose Your Own Song

Directions to Write a Song

- Get some paper and a pencil or crayons.
- Draw 4 different shapes at the top of your paper.
- Next, pick 4 different notes that you can sing easily and pair each one with a different shape.
- Begin composing your own song by singing the notes in the order of the shapes.
- Then, try mixing up the shapes and singing your notes in the new order.
- You can try repeating notes too if you like.
- Keep trying different notes together until you create an order you like, then keep going... Add lyrics! Add a drum beat!

Persist until you've created a song you love!

Draw Shapes for Your Notes
