

Create like a Sculptor

Directions to Design and Build a Mixed Media Sculpture

- Gather things like sticks, paper, cardboard, or plastic scraps that you can use to build a small sculpture.
- Next, find glue and string or yarn that you can use to hold things together.
- Design a sculpture based on shapes, then build it, seeing how high and wide you can make it stand.

For extra fun: Gather new materials and create a sculpture that expresses a feeling of your choice, take a picture of it and send it to Ziggy at ziggy@lpb.org
